INFORMATION OF THE PERSONS TO BE IDENTIFIED

The agreements on transmission of information, concluded in the context of FATCA between Switzerland and the United States of America, as well as in the context of the AEol between Switzerland and a large number of countries, so-called partner countries (in particular, under article 1, paragraphs 1 and 2 of the AEol Act, the Multilateral Competent Authority Agreement of 29 October 2014 and the other international conventions which provide for an automatic exchange of information on financial accounts) aim at combatting international tax evasion.

The tax identification and self-declaration form is used to collect the information required under FATCA/AEol. It is mandatory for unrestricted 'pillar 3b' individual pension insurance with a savings component (capitalization products, financial products and old-age pensions), as well as for premiums deposit accounts linked to pillar 3b contracts without a savings component (death benefits products, disability annuity products) or restricted pillar 3a contracts.

This form is not required if there is already a tax identification and self-declaration form completed and signed in the context of FATCA and the AEol, unless new data affect the country of tax liability and/or the FATCA/AEol tax status of the person to be identified.

The person(s) signing the aforesaid form is/are informed that VAUDOISE LIFE is a reporting Financial Institution (FI) for AEol and FATCA purposes. VAUDOISE LIFE commits to respect and apply due diligence procedures, such as transmitting requested forms (e.g. W-9 form with regard to US-Persons) and/or communicating information regarding reportable accounts held by reportable persons to US or AEol partner countries fiscal authorities, notably:

- name, address, date of birth, country of tax liability, taxpayer identification number(s) (TIN);
- account number (or, in its absence, its functional equivalent);
- VAUDOISE LIFE's name, address and Swiss company identification number (IDE);
- balance or value of the account (including the cash value for cash value insurance contracts and annuity contracts) as of the end of the calendar year, or the closure of the account and eventually its closing value whether the account were closed during the calendar year;
- any total gross amount credited to the account or paid off to its holders during the calendar year.

Every person liable to taxation in an AEol Swiss partner country and/or in the United States of America may be subject to transmission of information in the context of AEol and/or FATCA. The FATCA regulation, the Swiss AEol Act and the FADP define the legal framework related to data security.

Under article 19 of the AEol Act, the persons that are reportable to tax authorities can only claim from the FTA their right of access and can only request the rectification of inaccurate data due to a transmission error. If the data transmission unreasonably prejudices the reportable person, due to a lack of guarantees of the rule of law, the claims referred to in article 25a of the Federal Act on Administrative Procedure are applicable.

Regarding the information collected by VAUDOISE LIFE, these same persons have the rights defined in the FADP. In particular, they have the right to ask VAUDOISE LIFE to rectify inaccurate data in accordance with article 5 of the FADP. By virtue of article 8 of the FADP, they also have the right to access data that concern them and that is processed by VAUDOISE LIFE.

Generally, only the tax authorities of the reportable jurisdiction in which the reportable person is resident have access to the information communicated, which is used exclusively for tax purposes. In principle, the recipient State is prohibited from transmitting the received information to another jurisdiction and is bound by an obligation of confidentiality. Generally, the recipient State may only make the information communicated available to persons and authorities in charge of taxation or its supervision in that State.

The list of Switzerland's AEol partner States is available on the State Secretariat for International Financial Matters SIF (FDF) website under: <https://www.sif.admin.ch/sif/en/home/themen/internationale-steuerpolitik/automatischer-informationsaustausch.html>
